Time	Event Title	Organizer	Participants	Outline	Moderator	Speakers
10:00- 11:30	Development of renewable gases on the path to decarbonization	Fundación Empresa & Clima	Celsa Group. Global Omnium. EV Cargo. Baleària. Cementos Molins. Naturgy. Vertis Environmental Finance. Grupo Ferrer. Roca Group.	The low-carbon transformation process in the energy sector depends on the development of innovative technological solutions as well as on upgrading infrastructure. Despite the decreasing costs of renewables, the contribution to the energy mix of wind and solar accounts for 7 % in the NPS scenario due to the limitations related to their large-scale deployment and use in some sectors. Therefore, further technological advances and significant infrastructure investments are needed to support these trends and make low-carbon technologies truly competitive.	Elvira Carles Brescolí. Director of Fundación Empresa & Clima	Panellist 1 – Juan Carlos Orozco. Chief Strategy & Sustainability Officer. Celsa Group. Panellist 2 – Juan Luís Pozo. Corporate Sustainability Director. Global Omnium. Panellist 3 – Virginia Alzina. Sustainability Director. EV Cargo. Panellist 4 – Javier Cervera. Responsable de Transición Energética. Baleària. Panellist 5 – Carlos Martínez. Director Desarrollo Corporativo y Sostenibilidad. Cementos Molins. Panellist 6 – Nieves Cifuentes. Salud, Prevención, Medio Ambiente y Sostenibilidad. Naturgy. Panellist 7 – Marc Falguera. CEO. Vertis Environmental Finance. Panellist 8 – Marta Anglada. Senior Sustainability Manager. Grupo Ferrer. Panellist 9 – Carlos Garriga. Director. Roca Group.
12:00- 13:30	Navarre towards the energy transition	Government of Navarre	Government of Navarre. Regions4. Iberdrola.		Amaia Arrizabalaga. Chief of the Cabinet of the Regional Minister for Economic and Business Development. Government of Navarre	Panellist 1 – Mikel Irujo. Regional Minister for Economic and Business Development. Government of Navarre. Panellist 2 – Natalia Uribe. Secretary General. Regions4. Panellist 3 – Gonzalo Sáenz de Miera. Climate change director. Iberdrola.
14:00-15:30	Anchoring the Energy Transition: Ensuring social, market and political acceptance	REN21 (Energía)	REN21 ABEEólica Spanish Institute for Energy Diversification and Saving (IDAE). Ministry for the Ecological Transition and the Demographic Challenge. (tbc)	We need to accelerate the transition to a renewables-based economy and society. This requires innovation, disruption, addressing new topics, engaging with unusual players. Multi-stakeholder involvement, cutting across government, industry, and civil society, is central to this process. The transition to a sustainable energy system will only happen if we can ensure social acceptance.	Mariana Castano. Founder of 10 Billion Solutions	Panellist 1 – Thomas Andre. Director: Operations. REN21. Panellist 2 – Elbia Gannoum. CEO.ABEEólica. Panellist 3 – Joan Groizard. Director General. IDAE (tbc).
16:00-17:30	Just transition as a mechanism to accelerate climate action	Just Transition Institute. Ministry for the Ecological Transition and the Demographic Challenge (MITECO).	Just Transition Institute, Ministry for Ecological Transition and Demographic Challenge of Spain. DG Energy. Ministry of Environment of Chile. Ministry of National Development Planning (BAPPENAS) (tbc). International Labour Organization (ILO). The International Trade Union Confederation (ITUC) Asia Pacific.	This session aims to create an international dialogue based on the experience of different actors on how to promote a just transition that serves as mechanism to accelerate climate action.	Ana Belén Sanchez, Advisor, Just Transition Institute, Government of Spain.	Panellist 1 – Julián Martínez. Advisor. Just Transition Institute. Government of Spain. Panellist 2 – Maximiliano Proaño. Subsecretary for Environment. Ministry of Environment of Chile. Panellist 3 – Dr. Medrilzam. Director of Environmental Affairs. Indonesian Ministry of National Development Planning. Panellist 4 – Moustapha Kamal Gueye. Coordinator of the Green Jobs Programme. ILO. Panellist 5 – Joy Hernandez. ITUC Asia Pacific.
18:00-19:00	The role of the renewable gases in decarbonizing the economy	Spanish Gas Association (SEDIGAS) / Spanish Confederation of Business Organizations (CEOE)	Spanish Gas Association (SEDIGAS) Nedgia (Naturgy group) Business EU Inditex (TBC)	This side event is aligned with the main thrust of the agenda of the COP27 and will bring together gas industry leaders, livestock sector, agricultural associations, waste treatment, etc. and experts to share their views and insights regarding the role of the renewable gases in the pathway to achieve the decarbonization goals set for 2030 and 2050. Decarbonisation of the gas industry can be achieved by adopting different alternative and/or combination of technological and operational practices. The development of the renewable gases can realistically help achieve the net zero targets, but the ramping up of gas decarbonisation still poses numerous challenges. This session will contribute to discuss the broad range of issues related to fostering the decarbonisation of the gas sector through the development of biogas - biomethane and green hydrogen.	Naiara Ortiz de Mendibil, Secretary General of Sedigas	Panellist 1 – Joan Batalla, president of Sedigas Panellist 2 – Cristina Rivero, Head of the department of industry, energy, environment and Climate of CEOE Panellist 3 – German Medina, Gas Advocacy, Nedgia (Naturgy group)
